VISION STATEMENT:

**The legacy lives on in the Snowy Mountains Horse Riders Association –
Keeping Our Heritage Alive....**

In the tradition of the Man from Snowy River our vision is to hold on to the values of our heritage... our mountain horsemanship, our bush skills and bush lore, our history and our memories.

A unique Australian way of life, our aim is to be sincerely recognized by governments and society as responsible and legitimate land users in our traditional areas.

The Snowy Mountains Horse Riders Association Incorporated has renewed its vision for the future and refined its aims and objectives with a refreshed group of people who are committed to see that issues, which threaten the heritage of the Man from Snowy River, are properly managed.

The Association will continue to lobby for the reintroduction of horse riding into some wilderness areas as well as offer their resources and skills in other areas.

The SMHRA will also now be involved in the Wild Horse Management Plan with Kosciuszko National Park including representation of the Association on the Wild Horse Management steering committee.

They see that the wild horse issues go hand in hand with the history and culture of the high country horsemen and as brumby advocates see that they can play a significant part in this venture.
